

PENDANT LIGHT SPECIFICATIONS

TYPE GROLSCH SWING TOP

The Grolsch Swing Top Pendant has been transformed from a 330ml Grolsch beer bottle. The swing top bottle has been heated carefully to retain the detailed embossing and blown to form a well rounded body. The emerald green colour emits a bright joyous and inspiring mood when illuminated, perfect for any room in your home.

Each pendant is handmade making no two the same and dimensions variable.

APPROXIMATE HEIGHT: 230mm
WIDTH: 130mm
WEIGHT: 350g

FITTING RECOMMENDATIONS:

We recommend Edison fixtures to give the desired retro aesthetic and ambient glow. These can be purchased online, or through your own electrician.

LIGHT GLOBE: Vintage Edison Round Tungsten Filament Bulb

LAMP HOLDER: Bakerlite with cord grip
(definitely not a metal fixture)

CABLE LENGTH: 1.5m

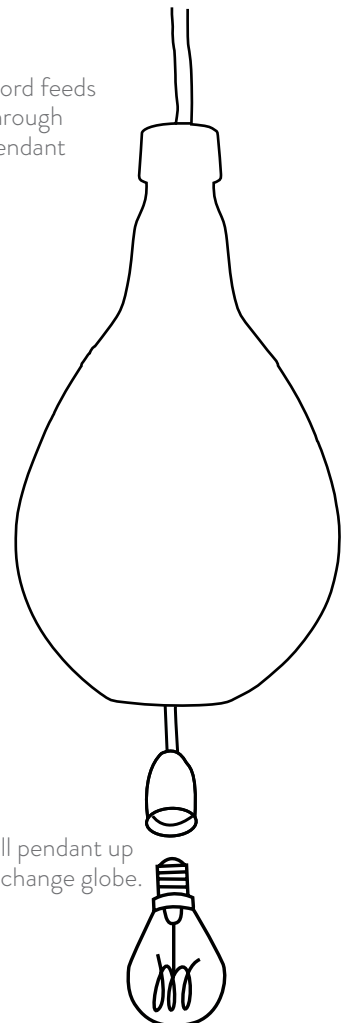

CEILING ROSE: Bakerlite ceiling rose black or white

Cord feeds through pendant

Pull pendant up to change globe.

PENDANT LIGHT SPECIFICATIONS

INSTALLATION

- Pendant lights must be installed by a qualified electrician and fixed to a weight bearing point capable of holding at least 1kg/pendant.
- Carefully pass electrical chord with bakerlite lampholder (or other chosen fixture) through the bottom of the bottle and out through the neck. The lampholder should self locate into the inside neck of the bottle. Supporting the weight of the pendant, secure the ceiling plate and hard wire the electrics.
- To change light bulb raise pendant to screw in and replace globe.
- If pendants are wired with fixtures other than those recommended by Sustainable Stubbies, we can not guarantee the life of your pendant.

CARE INSTRUCTIONS

- To clean, wipe off dust regularly with a dry soft cloth. Remove any marks with a soft cloth dampened by lukewarm water with a mild detergent.
- Never use detergents containing solvents or abrasives. The pendants have been sealed with a sealant that allows handling without leaving fingerprints and cleaning with a wet soapy cloth.

TERMS AND CONDITIONS

- If any breakages occur in transit Sustainable Stubbies management must be contacted immediately, if significant time has elapsed from receipt of goods replacement warranty may be void. A photo must be supplied of the broken pendant for a replacement to be sent.
- We endeavour to work hard to supply orders to you within 5-10 days, if this is not possible due to unforeseen circumstances we will contact you immediately to make arrangements.
- The pendants will be sandblasted unless otherwise requested. We do this so that the light is diffused evenly throughout the form, if the glass is not sandblasted light reflects and refracts creating a busy bling. This may be suitable for some spaces but is not overall preferable.
- If you send bottles it is important to note that there is always a small possibility that the bottle may break during the making process, even though this is rare not all bottles make it to live another day. In this scenario we will be in contact and work towards replacing the bottle from our own resources.
