

## SIZE GUIDE

### RINGS

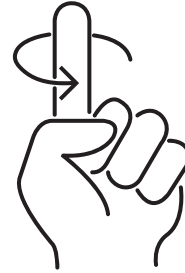

How to determine your ring size:

#### MEASURE A RING YOU OWN

1. Choose a ring that fits well on your finger.
2. Measure the inside diameter of the ring in millimeters (mm) by placing the ring on a ruler.
3. Compare the measurement in mm of your ring with the corresponding size given in the size guide chart.

#### MEASURE THE CIRCUMFERENCE OF YOUR FINGER

1. Wrap a string around the base of the finger you want to measure.
2. Mark with a marker where the two ends meet.
3. Lay the string on a ruler and measure its length in millimeters. This is the measurement of the circumference of your finger.

#### REQUEST YOUR SIZE

Some Viganò rings are handcrafted and are available in other sizes upon request.

### NECKLACES

Find the perfect length of your necklace:

1. Measure and cut a piece of cord the same length as the necklace you are interested in.
2. Place the lanyard around your neck to see where it falls. Also pay attention to the size and shape of the pendant if it is present.
