

LOVE BUGS

THE PERFECT MATCH OF BOTH PRE & PROBIOTICS

14 STRAIN PROBIOTIC 30 BILLION CFU, PREBIOTIC LARCH ARABINOGALACTIAN

"Friendly" bacteria act like the gut's defence system against "bad" or dangerous disease-causing bacteria. A gut that has a bountiful amount of this healthy friendly live bacteria enjoys wonderful health benefits.

JULIE ANNE LEE DCH, RCSHOM

Founder Julie Anne Lee pioneered the first holistic Veterinary clinic in Canada. Her experiences in caring for thousands of companion animals has laid the groundwork for the launch of the Adored Beast Apothecary product line. She now empowers you to be a true steward of your beloved animal using the power of nature and common sense as a wellspring of health.

LOVE BUGS

Available in 40g and 80g.

The 40g (small) container will last a dog up to 29lbs 56 Days!

OVER 80% OF THE IMMUNE SYSTEM IS HOUSED IN THE GUT.

Probiotics and Prebiotics, the "perfect match" that loves your pet's health and immunity.

A FEW AREAS LOVE BUGS CAN TARGET:

- IMPROVES NUTRIENT ABSORPTION
- AIDS IN IBD, GASTRIC REFLUX
- HELPS WITH FOOD SENSITIVITIES OR "ALLERGIES"
- ASSISTS IN PREVENTING URINARY TRACT INFECTIONS (UTIS)
- HELPS WITH ATOPIC DERMATITIS AND OTHER CONDITIONS OF THE SKIN
- HELPS COMBAT EAR INFECTIONS AND YEAST
- HELPS PREVENT TOOTH DECAY AND BAD BREATH

WHY INCLUDE PREBIOTICS?

If probiotics are so great, why do we need to add prebiotics?

Let's think of the gut as a garden... **Probiotics** are the flowers that grow, making it a friendly and healthy environment. **Prebiotics** are the fertilizer that help the friendly flowers to thrive - building a strong foundation for housing a healthy immune system for our pets!

Our prebiotic is made from Larch Tree Extract which supports colon health. It is often used as an adjunct to cancer therapies due to it's ability to stimulate the immune system and aid in blocking metastasis of tumor cells. What's not to love?
