

bond-eye

AUSTRALIA

halcyon

shot in Nusa Lembongan, Indonesia

HIGH SUMMER '23 | APRIL - JUNE DELIVERY

## brand story

Made to be seen, bond-eye swim is infused with the spirit of summer, salt-mist days + electric nights of its home in Sydney. Known for bold, ultra flattering silhouettes, each collection hints of nostalgia paired with innovative design principles.

Every piece is designed with intention, incorporating modern ethical production practices—from initial designs using our authentic tubular bound crinkle fabric, through to our hand craftsmanship here in Australia.

Every piece has been artisanally hand-made, knitted using premium European fibres, + constructed to allow four-way stretch + instant recovery along the body for statement-making pieces that match the mood of the wearer: Confident, discerning + truly authentic.

bond-eye swimwear is unsized + designed to fit a size XS through to L, with all shapes + sizes in between. Due to the unique stretch of our fabric, most of our bound crinkle bikini tops + one-piece swimsuits can fit an A-DD/E cup. Our ultra-flexible fabric means most of our bound crinkle bikini bottoms can be worn either low, mid or high rise.

## the collection

Each day we start a new beginning, stepping into a story of our own design + Halcyon encapsulates that spirit of exploration + living life slowly + on your own terms. Through this collection, we honour the act of taking a sabbatical from life + the freedom of waking up with nothing but the ocean + exploration calling your name.

Every piece in Halcyon has been crafted according to our signature unisex designs + multifunctional styles that support + celebrate every figure. We also welcome back our beloved + tactile Tiger Jacquard fabric in fresh hues of Mint and Pink to salute the sun + clear shallow seas.

Photographer Pierre Toussant brought his trademark raw + understated aesthetic, capturing our model muses Lente Hugen + Julia Saksa in idle revelry on location in Nusa Lembongan, Indonesia. Hair + makeup artist Rosarinho Rodrigues channelled the radiant sun kissed glow of a day living in a bikini, with stylist Rhea Raven setting our hazy sunset + sea-inspired shades against the mellow regalia of Bali living.

This is the moment to restore, revive + release your true self.

## sustainable swim, made to be seen

At bond-eye, our values are stitched firmly into the fabric of our swimwear + represent our passion + commitment to the ocean + the beautiful Australian landscape. In 2018 we began our sustainability journey by taking honest + transformative steps towards a more responsible future.

Every piece in our bond-eye swim collection is curated for a truly seasonal limited edition offer + handmade in Sydney, Australia, + we are proud to be working with female-led communities in our factory, dye-house + fabric mill. We've also zeroed in on every link in our production chain: learning, reinventing + making conscious efforts to minimise our impact on the environment.

Additionally, we're proud of the fact that our swim collections are unisex for a reason — the reduction of excess fabric from offering multiple sizing. By creating unisex swimwear, we're also cutting down on excessive stock + reusing fabric off-cuts, with 65% of our range shaped from regenerated nylon derived from pre-consumer raw materials that would ordinarily go to waste.

ring sasha crop + sign brief

aegean blue eco | april

This recycled yarn is manufactured exclusively by a premium Italian mill using leading environmental processes which include reduced carbon dioxide emissions, 100% renewable energy + less water consumption.

We are equally committed to our sustainable packaging, with all bond-eye tags, labels + trims made from recycled materials, + our garment bags are produced from plant-based materials that can be composted in home waste, without leaching harmful chemicals into the soil.

We have also partnered with UPPAREL, a company that reimagines the life of unwanted textiles + turns them into useful

products. To date, we've prevented 12,124.5 kg of textiles from being sent to landfill. This has also resulted in the prevention of 42,507 kgs of greenhouse gases from polluting our atmosphere.

Since 2018, we have also partnered with i=Change, donating over \$34,561, with \$1 from every sale going to three charities focused on environmental issues, women's well-being + child welfare.

bond-eye is committed to a better future. Our goal is to push further forward, applying the most innovative environmental practises to our hi-tech performance materials, always with sustainability in mind.

**core**

available now

Featuring the classic, signature shapes bond-eye has become synonymous for in 4 core colours that never go out of style. They are available all year round, currently in black, baywatch red, optic white + khaki colourways.

The core range offered in our unsized bound crinkle fabric, is the foundation of each collection with proven combinations that are refined to deliver maximum impact. Our entire core collection is made from eco-friendly crinkle derived from regenerated nylon.

The core shapes are proven bestsellers, they are only added to the core range when sales prove them as the best of the seasonal ranges + they become long term, non-seasonal sellers.
