

STAIRMASTER® 10G

The innovative new design of the StairMaster 10G features our exclusive OverDrive Training Mode that simulates carrying or pushing a load up stairs, for the most intense climbing workout. The 10G's advancements all focus on delivering the best climbing experience ever created. User-focused features include the widest and deepest stepping surface and lowest step-up height in the industry, ergonomic handrails to support multiple climbing positions and an all new drive train that delivers smooth, quiet performance.

OVERDRIVE TRAINING MODE

The new OverDrive Training Mode simulates carrying or pushing a load up stairs. Users choose either manual control or one of several pre-programmed interval workouts to create the toughest workout ever delivered on the cardio floor. The 10G handrails provide three hand positions for pushing, as well as farmer's carry handles.

PRODUCT DESIGN FEATURES

The widest and deepest step in the industry and lowest step up height. Redesigned handrail system supports a variety of workout positions including push/carry in new OverDrive Training Mode and optimal entry/exit. Service panel removes with 4 fasteners, allowing easy access to drive train and electronics.
