

FREERUNNER™ 10TRX

The 10TRx FreeRunner creates a revolutionary feel for runners and walkers. HexDeck Technology creates an unprecedented cushion and responsiveness – lightweight walkers, heavyweight runners and everyone in between will experience initial cushion/flex at foot strike, along with an immediate response, returning support and energy for the push off.

HEXDECK TECHNOLOGY

Our HexDeck System features an aluminum deck supported by a proprietary, hexagonal polymer suspension system. The deck dissipates heat, keeping a cooler surface for the belt and reducing wear. The deck panel will last many times longer than MDF - only a thin phenolic layer needs replaced when worn, significantly reducing the labor and material long-term cost of ownership.

16/20" OPENHUB CONSOLE

The 16/20" Capacitive Touch
OpenHub Console offers a premium
user interface design, Star Trac 20
HIIT Programming, RunTV, tap to pair
technology (Apple Watch + Samsung
Watch) and integrated apps for
streaming entertainment, news, and
workout motivation. With standard
features like HDMI streaming,
Bluetooth connectivity and TV tuner
accessories, this is a display that has
something for every user.
