

4. It will take up to 24 hours for the beads to fully absorb the water, however the unit may be used immediately. The beads are refillable, but should be replaced at least one time per year.
5. For best efficiency, base should be about  $\frac{3}{4}$  full with water beads or a combination of both, but never overfilled (blocking airflow).

### USING YOUR CIGAR OASIS MAGNA 2.0

- Once the **MAGNA** is put together and plugged in, it turns on and will read the current humidity. The unit is factory preset at 70% humidity.
- To raise or lower the humidity settings use the **UP** or **DOWN** arrows on the remote. A few seconds after the adjustment the unit will go back to showing the current humidity level.
- When the unit needs to be refilled, it will flash **Lo H2O**.

By pressing the **SUN** button you can view the following information:

- Press 1 time to view **TEMPERATURE**. Use **UP** and **DOWN** arrows to select Celsius or Fahrenheit. To save your selection press the **SUN** button again.
- Press 2 times to view **Average Humidity** (the unit will start at 0 until it has enough information to give an accurate reading).
- Press 3 times to view **LOW Humidity over 3 days** (the unit will start at 0 until it has enough information to give an accurate reading).
- Press 4 times to view **HIGH Humidity over 3 days** (the unit will start at 0).
- Continue pressing the **SUN** button until the screen returns to the current humidity.

### PLACEMENT

It is best to place the Cigar Oasis with the rear air vents facing the back wall leaving about two inches for air to travel upward. Keep the back wall clear of any boxes to allow air to flow freely and never block or cover the vent.

### ASSEMBLY & STARTING YOUR CIGAR OASIS MAGNA 2.0

1. Remove all contents from the box.
2. Remove the white plastic cap from the front of the unit.
3. Locate the water beads and pour through the hole into the white water tank. Fill the water tank up to the bottom of the vertical lines using **distilled** water only.
4. Place the white plastic cap over the hole in front of the unit.
5. Plug the micro USB connector into the side of the unit, then plug the adapter into the wall to power up the unit. **Only use the supplied power adapter.**
6. Locate the remote (digital readout) inside the cabinet and plug into the unit.

### WATER TANK REFILL INSTRUCTIONS

1. Remove the white plastic cap from the front of the unit.
2. Pour **distilled** water through the hole into the water tank.
3. Place the white plastic cap over the hole in front of the unit.

### CALIBRATION INSTRUCTIONS

To set the unit to match another hygrometer, you may adjust the reading by up to 9% (+ or -) on your **Cigar Oasis MAGNA 2.0**.

1. Determine if you need to increase or decrease the reading on the *Cigar Oasis* Humidifier to match the reading on your separate digital hygrometer.
2. Press the **UP** and **SUN** button simultaneously and hold for 3 seconds to enter the Calibration Mode (Displays **U 0**).
3. Press **UP** button if you need to increase the reading on the humidifier to match the reading on your separate hygrometer OR Press the **DOWN** button if you need to decrease the reading on the humidifier to match the reading on your separate hygrometer.
4. Press **SUN** button to leave the Calibration Mode.
5. Allow the humidifier to run for at least an hour before you check if humidity level matches the other hygrometer.

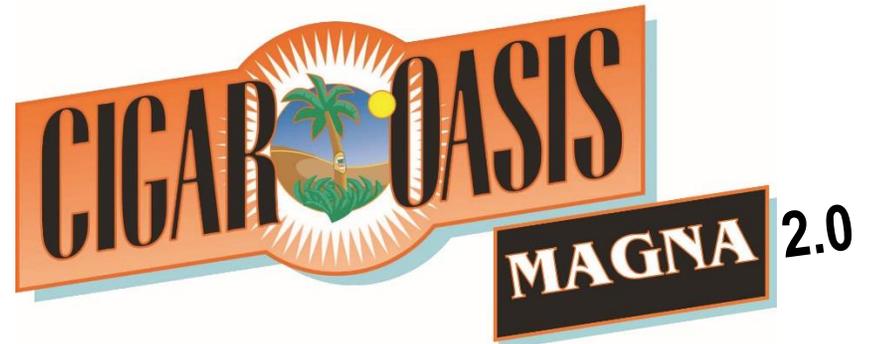

If further re-calibration is required, repeat the above procedures.

### Optional Accessories

**Circulation Fans** - Plug the circulation fans into remote and locate them at the furthest point possible in the humidor from the water tank. Face them towards the middle of the humidor at a 45 degree angle / \.

**Linked MAGNA** - To add a linked MAGNA for larger cabinets, set up the unit using the instructions above. Then plug the linking cable into the plug to the right of the remote (**OUT**) on the MAGNA with the remote attached. Plug the other end of the cable into the left of the remote port (**IN**) on the linked MAGNA. *See Diagram 1.*

**Wi-Fi** - For instructions on the operation of the Smart Humidor Wi-Fi Connector please refer to the Wi-Fi manual.
