

# YdroStop

## Trial Demo Unit model #HS2800

The YdroStop Demo unit is ideal for self-testing the operation and performance before the actual purchase. No tools required. Simply connect using your garden hose to a water spigot and turn on the water. The YdroStop is preset in the **automatic** mode with a **15-minute time set**. The setting may be changed as desired to better understand the operation.

Price: \$339.00 (100% refundable upon return and inspection. Less outbound shipping cost)
