Notice

3rd Party Software Instructions

Uneekor, Inc. does NOT provide 3rd party software installation, licensing, or registration. Please contact each respective party for such requests.

The Golf Club:
support@protee-united.com

E6 Connect:
<https://trugolf.com/trugolf-customer-support/>

Creative3D:
cg3d.support@datacrea.sk

Please make sure to select “Uneekor” as the “simulator hardware” option during the registration process for each company. You will need this for the appropriate licensing and integration of the Uneekor sensor.

Interface Setup

It is important that you have already finished QED software installation procedure and the appropriate 3rd party registration before you start the 3rd party software interface setup.

Please refer to our “Installation Guide” if you have not done so.

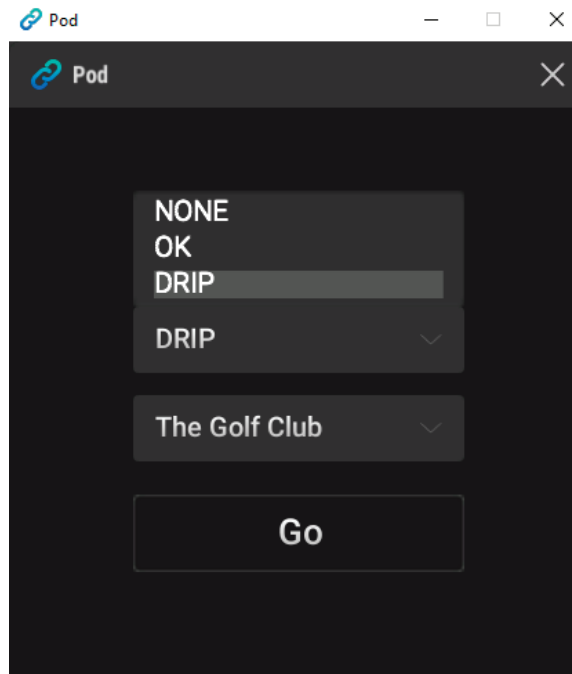

Steps:

- 1 Find and click the “Pod” icon on your desktop. If you do not see it on your desktop, right click the “QED_Ignite” and “open file location.”

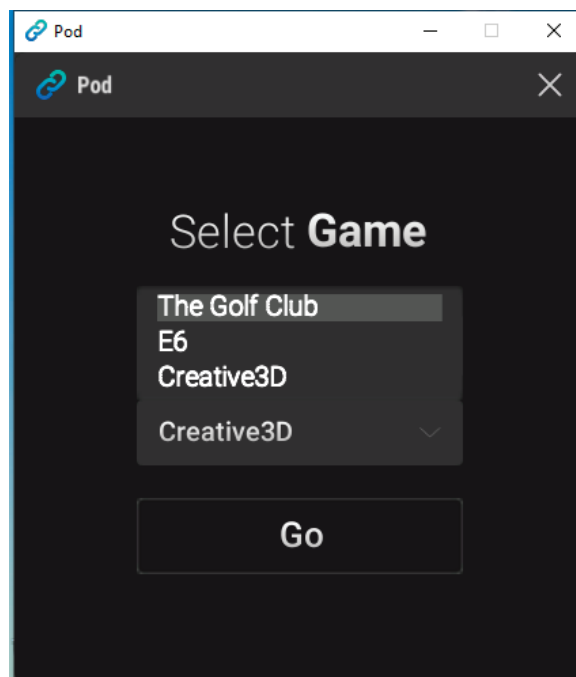

Interface Setup

- 2 Click the top rectangle and choose the preferred sound option.

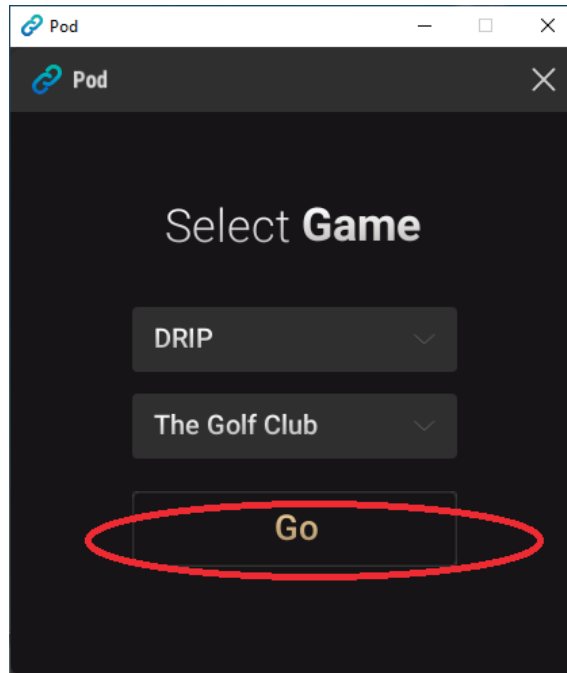

- 3 Next, click on the middle rectangle and choose the appropriate game: The Golf Club, E6, or Creative3D.

Interface Setup

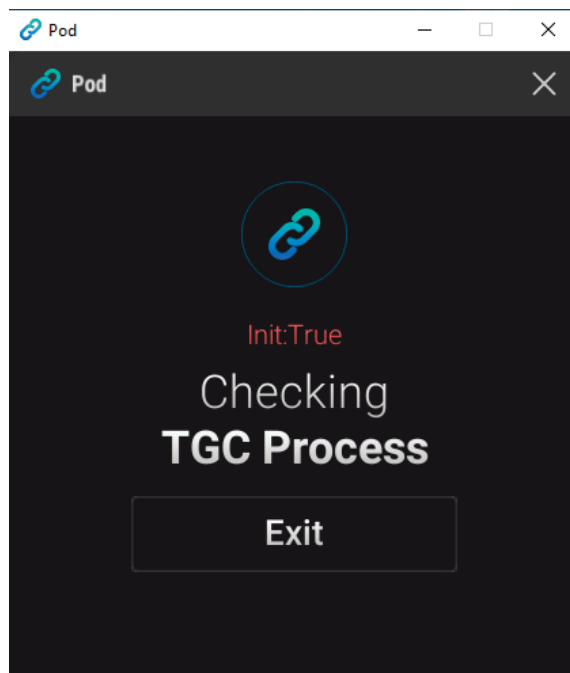

4

Once you have finalized the 2 options, click the “Go” button to run the initiation process.

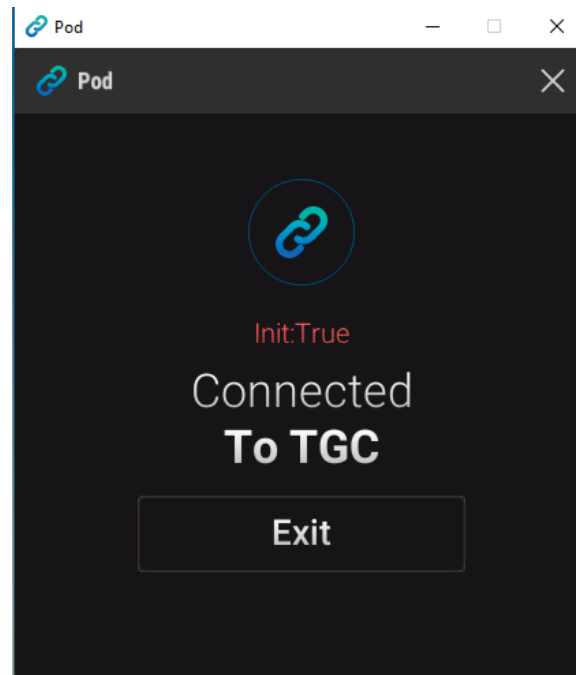

5

In the initiation process you will see this on the application. During the “Checking Process” status, click and open up the 3rd party software.

Interface Setup

- 6 When the 3rd party software opens up, you will see a “Connected to TGC,” “Connected to E6,” or “Connected to Creative3D” status.

You are now finished with 3rd party software interface setup.
