Contents

THE trēo® SYSTEM

OVERVIEW

INLINE trēo® offers:

- A very extensive range of components and sizes, including tops from 24" to 84" wide in various depths.
- A multitude of tall and low storage options and accessories.
- Flexibility in laminate selection and mixing of finishes, colors and edging.
- Superior structural strength using metal-to-metal (Mod-eez®) fasteners.

CONSTRUCTION DETAILS

General

- Tops, end panels and weight-bearing shelves are 1" thick with 3mm PVC edging.
- No charge option to have HPL tops made $1^1/_{16}$" thick; subject to minimum volume requirements.
- Doors, drawer fronts and modesty panels are $3/_4$" thick.
- Doors and drawer fronts are edged on all sides with 3mm PVC edging.
- Non-PVC edging available for special applications; subject to minimum volume requirements.
- All core material is 45 lb commercial grade particle board.

Worksurfaces

- All worksurfaces are 28.5" high unless otherwise stated.
- Glides provide over 1" height adjustability (stem is $1^1/_2$" long).
- All end panels, both full and partial, are non-handed.
- Modesty panels are $3/_4$" thick and are reversible.
- Full modesty panels are same height as end panel.
- Partial modesty panel is 16" off floor for normal power/data access.
- Wall access modesty panels provide 20" clear access which is the new building code standard for new construction.
- End panels are flush to ends of top and modesty is flush to back, unless otherwise noted.
- Width and depth dimensions for tops are actual.
- Worksurfaces come with one grommet unless otherwise stated.
- Islands (D, P, Q and K) not intended to be used as freestanding units.

Drawers

- All drawers, including box drawers, have full extension, tempered steel, ball-bearings slides.
- All drawers on pedestals and lateral files gang-lock.
- Box and file drawers have load capacity of 100 lbs.
- Lateral file drawers have load capacity of 150 lbs.
- All lateral file drawers have steel reinforced bottoms.
- Top box drawers include a pencil tray, except in multifiles, where the box drawers are slightly narrower.
- Drawer interiors are black textured, mar-resistant finish for easy cleaning
- Floor pedestals have 1" leveling capability.

Miscellaneous

- Modesty panels use structurally superior, hidden, Mod-eez® fasteners. Most other connections use conventional cam & pin fittings.
- All locking units are keyed randomly unless specified "keyed-alike" at time of order (no up-charge).
- All units, except those with drawers, are shipped RTA (ready to assemble).
- Translucent doors on tall storage units and hutches have annodized aluminium frames with mitred joints.

FINISHES

- One, two or three tone finishes available. Tops, faces and chassis can be same finish or mixed in any combination (see How to Specify Finishes in INLINE trēo® page 1-3).
- 16 standard Thermally Fused Laminates (TFL).
- 22 standard High Pressure Laminates (HPL) - available for worksurfaces, drawer faces and door fronts.
- INLINE thermally fused laminates meet all the performance requirements of high pressure laminate required for sales as worksurfaces under National Master Standing Offer and Supply Arrangement contracts.
- All solid and woodgrain TFL finishes come with matching edging as standard.
- All solid and woodgrain HPL finishes come with matching edging except for Ginger Root Maple.
- User has option to specify contrasting edging (eg. black edging on cherry laminate).

- Custom HP Laminates can be used for a nominal upcharge.
- Standard Finishes shown on page 8-2.

Standard Laminates

Nova white	Folkstone Grey	Canadian Grey
Stainless	Charcoal	Black
Acacia	Hard Rock Maple	Ginger
Eclipse	Kindle	Resonance
Grigio		
Fresco	Silverwood	Data
Blackwood	Storm	
Rustik Cherry	Summer Flame	Wild Cherry

HOW TO SPECIFY INLINE trēo® FINISHES

TOPS, RECTANGULAR, CURVED, CORNER, EXTENDED CORNER, BRIDGING
T = Top finish (worksurface), can be specified in either TFL or HPL
TT = Top Trim selection
B = Base finish (support and modesty panels), can be specified in TFL only
BT = Base Trim selection

## TOPS – D, P, Q, K

T = Top finish (worksurface), can be specified in either TFL or HPL
TT = Top Trim selection
B = Base finish (support and modesty panels), can be specified in TFL only
BT = Base Trim selection
Post leg units come standard with black post leg
Nickel post leg available, add "N" to end of product code and add $105 List

DESKS – REGULAR, BOW, TOP, EXECUTIVE RETURNS

T = Top finish (worksurface), can be specified in either TFL or HPL
TT = Top Trim selection
C = Contrast finish (drawer fronts), can be specified in either TFL or HPL
CT = Contrast Trim selection
B = Base finish (support and modesty panels), can be specified in TFL only
BT = Base Trim selection
(-) = Handle selection, choose from 4 styles of handle for pedestals

HUTCHES – OPEN, TRANSACTION, FLIPPER DOOR, CUPBOARD DOOR, TALL STORAGE UNITS
T = Top finish (top panel), can be specified in TFL only (except transaction hutches can
be HPL, for flipper door hutches top matches base finish)
TT = Top Trim selection
C = Contrast finish (drawer/door fronts), can be specified in either TFL or HPL
CT = Contrast Trim selection
B = Base finish (support and back panels, shelves on open hutches), can be specified in TFL only
BT = Base Trim selection
(-) = Handle selection, choose from 4 styles of handle for Tall Storage Units

PEDESTALS – MOBILE, FLOOR, HANGING

T = Top finish (mobiles), can be specified in either TFL or HPL (extra)
TT = Top Trim selection
C = Contrast finish (drawer/door fronts), can be specified in either TFL or HPL
CT = Contrast Trim selection
B = Base finish (pedestal body), can be specified in TFL only
BT = Base Trim selection
(-) = Handle selection, choose from 4 styles of handle for pedestals

LOW STORAGE – LATERAL FILES, MULTIFILES, CREDENZAS

T = Top finish (freestanding only), can be specified in either TFL or HPL
TT = Top Trim selection
C = Contrast finish (drawer/door fronts), can be specified in either TFL or HPL
CT = Contrast Trim selection
B = Base finish (support and back panels), can be specified in TFL only,
BT = Base Trim selection
(-) = Handle selection, choose from 4 styles of handle for doors and drawers

ACCESSORIES – BOOKCASES, KEYBOARDS, ETC.
T = Top finish (keyboard tray), can be specified in either TFL or HPL,
TT = Top Trim selection
B = Bookcase shelves / gables
BT = Base Trim selection
Mechanisms such as keyboard trays come in Black only
Bookcases are available in TFL only, also need to specify your choice of edging

Must enter either Y or Z to define legs.

Remarks

Curved Shells

- Fits Corners with matching connection depth
- Includes worksurface, modesty panel, and two end panels
- Must add Y or Z for end panel combination
- End panels are non-handed
- Recessed end panels are 11"D
- Modesty panels are flush to the back
- Shells up to 48"W have one grommet – centred
- Shells 54"W and larger have 2 grommets – located in corners

Curves

- Length of curve in Curved Shells:
  - 24" deep, 20" join ➞ 20.5"
  - 30" deep, 24" join ➞ 20.5"
  - 30" deep, 20" join ➞ 27"
  - ie. for 30" deep Shell (24" Join) would need a 54" Shell to fit a 30" Lateral File ➞ 30" (lateral) + 20.5" (curve) + 1" (panel) = 51.5", closest size is 54"

- Minimum length of Curved Shells to allow for a pedestal:
  - 3 TF 3624 L20 C Z
  - 3 TF 3630 L24 C Z
  - 3 TF 4230 L20 C Z

- Minimum length Curved Shells allowing for a 30" Lateral File
  - 3 TF 5424 L20 C Z
  - 3 TF 5430 L24 C Z
  - 3 TF 6030 L20 C Z

- Minimum length Curved Shell allowing for a 36" Lateral File
  - 3 TF 6024 L20 C Z
 - 3 TF 6030 L24 C Z
 - 3 TF 6630 L20 C Z
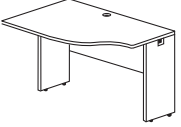

Choosing a Pedestal

- 20"D pedestals go with 24"D TF's and TP's
- 24"D and 29"D pedestals go with 30"D TF's and TP's

NOTE:
- 30"D Shells curving down to 20" join also available.
  Order as **3TF / TP / TPQ xx30 L20 C (-)**
- Add $25 List to similar 30"D Shells curving down to 24" join
- Shells ordered with Z (2 recessed) gables ship with 2 flat brackets only. If these tops are to be configured up against tops with no recessed gables, it is recommended to order a 3 BRPK 2 bracket pack (see pg. 1-13)
- If NMSO requires, will cut curved end to 18"D

- Fits Corners with matching connection depth
- Includes worksurface, modesty panel, and two end panels
- Must add Y or Z for end panel combination
- End panels are non-handed
- Recessed end panels are 11"D
- Modesty panels are flush to the back
- Shells up to 48"W have one grommet – centred
- Shells 54"W and larger have 2 grommets – located in corners

Curves

- Length of curve in Curved Shells:
  - 24" deep, 20" join ➞ 20.5"
  - 30" deep, 24" join ➞ 20.5"
  - 30" deep, 20" join ➞ 27"
  - ie. for 30" deep Shell (24" Join) would need a 54" Shell to fit a 30" Lateral File ➞ 30" (lateral) + 20.5" (curve) + 1" (panel) = 51.5", closest size is 54"

- Minimum length of Curved Shells to allow for a pedestal:
  - 3 TF 3624 R20 C Z
  - 3 TF 3630 R24 C Z
  - 3 TF 4230 R20 C Z

- Minimum length Curved Shells allowing for a 30" Lateral File
  - 3 TF 5424 R20 C Z
  - 3 TF 5430 R24 C Z
  - 3 TF 6030 R20 C Z

- Minimum length Curved Shell allowing for a 36" Lateral File
  - 3 TF 6024 R20 C Z
  - 3 TF 6030 R24 C Z
  - 3 TF 6630 R20 C Z

Remarks

Corners

- Includes top, 2 modesty panels, 2 support panels and leg
- Includes one grommet
- Modesty panels are non-handed
- See pg. 1-20 to view modesty options
- Modesty panels are inter-changeable between full and partial modesty units. Thus, corners can have mixed full and partial modesties. To do this, order appropriate numbers of full and partial modesty corner units and inter-change the modesties
- Corner leg is hollow to provide wire management conduit
- Corner leg comes assembled
- Corners have 3" round grommet
- Recessed end panels are 11"D
- Single arm integrated keyboard corners have "KM" style (low) mechanisms (see pg 7-2 for details)
- Double arm integrated keyboard corners have "KF" (Full Flex) mechanisms (see pg 7-2 for details)
- Keyboard platform is 15"D
- Includes one grommet
- If NMSO requires, will cut connection to 18"D

Full Gable Options

- For two full legs on corner units, add "X" to code; add $100 to List price
- For one full / one partial leg, add "Y" to code; add $100 to List price
- Standard code ships with 2 partial legs

SIN 711-2

Remarks:
- Can specify up to 3 finishes (Contrast – drawer faces, Base-body, Top-top) – drawer faces or top or both can be HP laminate.
- HPL price includes HP on Tops (T) or Faces (C) (specify which). If both wanted in HP, add $78 List, ($100 List for legal width peds).
- Can be keyed alike, specify on order
- Need to select handle style and finish
- Gang lock secures all pedestal drawers
- All drawers on full extension, ball bearing slides.
- Includes hanging file suspension bars
- Accepts legal and letter files.
- Includes pencil tray in top "Box" drawer.
- Mobile peds have hidden 5th wheel behind bottom face to prevent tipping when bottom and top drawers open at the same time.
- 3mm trim on all top and face edges
- Mobile peds can be ordered as freestanding by adding "F" to the end of model numbers eg. 3 SMX 20 **F**. Casters replaced with levellers in factory, price remains the same.
- Cushion is attached using Velcro.
- Seating fabric is standard in Black. Panel fabrics from INLINE Fabric Card can be used but they do not meet BIFMA seating wear standards.
- **Explanation of Standard Coding:**
  - S → Storage
  - M → Mobile Pedestal
  - H → Hanging Pedestal
  - J → Floor Pedestal
  - W → Box / File
  - WS → Box / File / Seat
  - X → Box / Box / File
  - Y → File / File
- Floor pedestal glides have over 1" leveling capacity

Choosing a Pedestal
18"D hanging ped fits any top
20"D Pedestals fit under
- 24"D TF's and TP's
- 20"D straight BN's
- 24"D straight BF's
- all CEF's and CEP's

24"D Pedestals fit under
- 30"D TF's and TP's
- 24"D straight BN's

30"D Floor Pedestals fit under
- 30"D TF's and TP's (actual depth is 29")

- Legal width files hang side-to-side or front-to-back
