

## Flóra Mónika Farkas

We are so happy to feature [Flóra Mónika Farkas](#) this month, one of our Scrapbook team members! Let's give her a warm welcome, and enjoy getting to know her!

### 1. What motivated you to start making layouts and begin stamping?

Family memories and photos are very important for me. Lately, we take thousands of photos with our phones and cameras, but we just keep them on our devices and forget them. I love to select the best shots, print them out, and create a physical thing from it. I have always been a big fan of pretty papers, stickers, and crafting. I feel in scrapbooking I can conduct my creative energy and create something useful and meaningful.

### 2. How did you fall in love with Altenew?

I met Altenew and Tasnim at Paper Word in Frankfurt 2016. The unique designs of the stamps instantly caught my eye. The first time I tried the crisp dye inks and stamps I was in love. I am very picky, and am always looking for the best quality products to use.

### 3. Your layouts are amazing! Do you have a favorite sketch/layout that you go back to? Please share some tips on using them!

Thank you! :-) I make many layouts center-emphasized. I love to place a big element in the middle and build my design around it. I love this technique because the result is always impressive and the main element is a good starting point. Anyway, I always try to create something new and don't make replicas.

**4. Do you have a specific style that you are comfortable with or like to stick to?**

I have found that colors are very important for me. There are some colors I am not comfortable with and it can be hard to create with them. I also don't often do mixed media because it's not my thing. My style is clean but busy at the same time because I love to use lots of embellishments - however, I try to keep the design clear.

**6. Can you share a layout you made previously using Altenew products?**

**7. This is just for fun! If you can choose only three crafting supplies for the rest of your life, what would you choose?**

Paper trimmer, chipboard stickers, and enamel dots.
