

Triangle MadnessDie Set

LAYERING GUIDE

Cardstock:

Pale Gray

Winter Clouds

Forest Glades

Dark Chocolate

Deep Iris

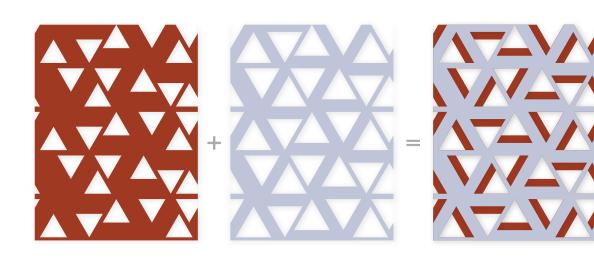

Apple Red

Navy

Triangle MadnessDie Set

LAYERING GUIDE

Designer's Tips:

Flip, rotate and offset the die cut pieces in different ways to create more unique design combinations. These dies are perfect when used with different colors of cardstock.

Directions:

Cut a design from the top of your panel, then align the die again by overlapping the top section of the die with the bottom section of the cut out openings on your panel. The die will snap in place and cut the second half of your panel, creating the same result as a cover die.
