

Chemistry Vases
Stamp & Stencil

LAYERING GUIDE

Inks:

- Obsidian
- Limestone
- Industrial Diamond
- Pink Diamond
- Pinkalicious

Designer's Tips:

Create a card for a budding scientist by stamping or drawing bubbles above the test tubes from the coordinating stamp set and using the stencil to make it look like they are filled with a variety of substances!

Ink through with a light blue tone to make it look like the vessels are filled with water, then use your favorite stamps and dies to add flowers to these fun vases!
