

Retro Bicycle Stamp Set

LAYERING GUIDE

Designer's Tips:

This stamp set gives you the option to stamp the bicycle with or without the basket. If you don't have the die set, or if you prefer a one-layer look, cut a piece of mask paper or masking tape (try our Masking Paper Sheets or Satin Masking Tape!) to cover the front of the bike handlebars. As you stamp the layers of the bike, this area will be protected. This will provide the perfect space to stamp the basket and flowers!

Make your scene even more realistic by adding a shadow. Use our Detailed Blending Brushes to blend a bit of light grey ink along the bottom edge of each wheel. You don't need to add a full shadow - just a little bit of blending will do the trick!

Inks:

- Obsidian
- Bamboo
- Olive
- Rocky Shore
- Mocha
- Lavender Fields
- Deep Iris
