

Good Vibes Stencil Set (3 in 1)

LAYERING GUIDE

Stencil A Ink

Stencil A Rotate, Ink

Designer's Tips:

Use the included positive pieces to place into different areas of the stencil that you want to protect while inking. This will make it easier for you to create a pattern with more than two colors!

Don't forget to look at your stencils in different ways - the center of the sunburst can be placed at the top of your project with the rays angling downward, the stripes can go across your card horizontally instead of vertically, etc. It's all up to you!

Inks:

Vanilla Cream

Orange Cream

Volcano Lake

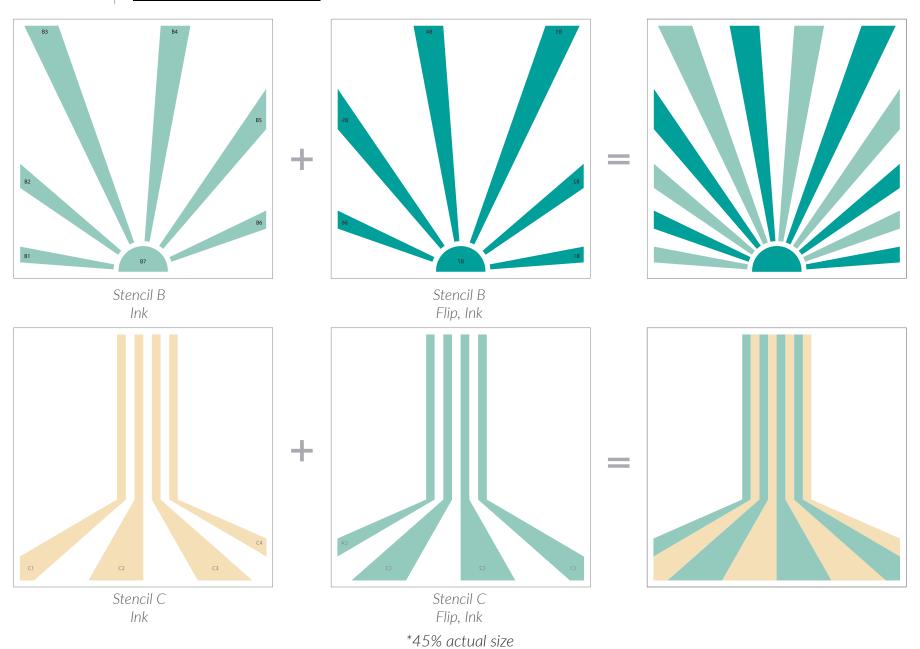

Lagoon
