LAYERING GUIDE

Designer's Tips:

You can opt to use these stencils with its coordinating stamp set or not, either way you will create a stunning bouquet of marigolds! I suggest that you first stamp the bouquet image on the upper and lower half of your card in a landscape position to add some symmetry, color in the image with the stencils using 2-3 shades (lightest to darkest) of your favorite dye ink, use a die cut of the butterfly of your choice and adhere to upper middle right of your card, stamp the sentiment in the center, and add some enamel dots to make the card pop!

Vellum Translucent Paper

Vellum Translucent Paper

Designer's Tips:

Layer the intricate butterfly die using blue or pink cardstock, then for the cut out pieces of the upper and lower wings, use velum paper to create a glassy effect! Adhere these pieces together, then use foam tape to help elevate the piece on your cardstock.
