Designer's Tips:

Create a wreath! Stamp and die cut the blossom and leaves multiple times, and arrange in a circle on your project. Use the center of the wreath to stamp your sentiment, along with the die-cut "care" from the set!

Depending on the variety of apple, the apple blossom blooms in different shades of pink and white. However, don't let that limit your creativity! These sweet little flowers would look lovely in any combination of colorful hues!
