

**Mini Delight:**  
Watercolor Cluster Stamp Set  
**LAYERING GUIDE**

- Inks:**
- Obsidian
  - Frosty Pink
  - Coral Berry
  - Ruby Red
  - Maple Yellow

**Designer's Tips:**

Make these flowers appear even more like watercolor by inking up each layer with dye ink, then spritz the stamp with water. Quickly stamp down onto watercolor paper, and the water will naturally blend the colors together.

The leaves are only one layer, but you can give them more depth by blending a gradient of two contrasting ink colors onto the same stamp before pressing onto your cardstock.
