- Inks:**
- Pink Diamond
 - Razzleberry
 - Blush
 - Crimson

Designer's Tips:

Use photo references to help guide your color selection. Try cutting all of the pieces from white cardstock, then use your favorite inks and blending tools to add gradients of color to each layer for the most realistic look!

Add more dimension to the front-facing camellia by curling up the edges of each of the petals after you adhere them. The result will be so impactful, no one will know how easy it was to achieve!
