

NATURAL INSTANT LIP PLUMPER

To instantly increase the moisture content and increase volume in the lips we use a cutting edge technology based on the use of hydroscopic material. This can penetrate inside the lips and fill it with water.

WHY IS HYALURONIC ACID USED?

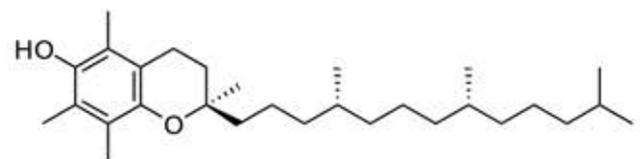

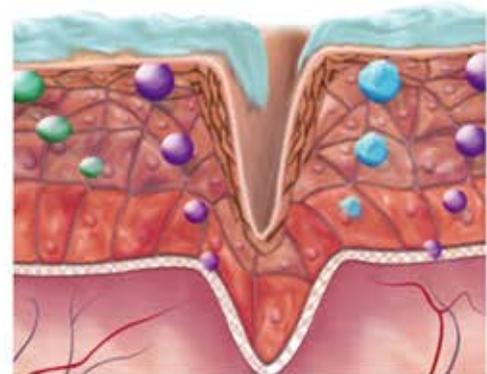

Hyaluronic Acid is specially chosen for its high water-retaining capacity and natural affinity to the body. This is because Hyaluronic Acid acts as a natural moisturizer and also has the ability to hold up to 1000 times its molecular weight in water.

The hydration process will cause a change in volume in proportion to the sphere's moistureretaining capacity. The immense physical change in volume delivers rapid results as opposed to a biological change that could take months to achieve the same effect.

To promote a natural and more sustainable increase in lip volume, Savarnas Mantra Natural Instant Lip Plumper uses a peptide that is known as Palmitoyl Oligopeptide. This peptide is a specific amino acid that penetrates the epidermal layer of the skin to influence the skin cells. The peptide also evokes the skin to initiate a natural repair sequence, which stimulates an increase in collagen and hyaluronic acid.

Hyaluronic Spheres penetrate the skin where they fill with moisture and expand, increasing the volume of the lips

Palmitoyl Oligopeptide is a peptide that helps stimulate an increase in collagen, while Vitamin E aids in reducing transepidermal water loss

WHAT IS PALMITOYL OLIGOPEPTIDE?

Palmitoyl Oligopeptide is a blend of several fatty acids and amino acids. Various researches suggest that Palmitoyl Oligopeptide that the peptide works to stimulate collagen production and helps stability of the skin. It helps achieves a smooth and wrinkle free skin. This happens because the chains of amino acids and skin's collagen together communicate to boost its production.

HOW DOES TOCOPHERAL HELP?

For long and sustained results, we've topped off this lip loving formula with Vitamin E (Tocopheral). Tocopherol is a naturally occurring vitamin which is highly beneficial because it aids in reducing transepidermal water loss. This further helps the skin to remain soft and healthy for a longer period of time.

Savarnas Mantra Natural Instant Lip Plumper has a fabulous collection of ingredients that you can benefit from. It instantly plumps the lips, produces increased levels of lip volumizing components and maintains long and lasting fullness of lips.

OTHER INGREDIENTS

Ethylhexyl Palmitate, Tribehenin, Sorbitan Isostearate, Palmitoyl Tripeptide-1, Benzyl Nicotinate, Silica Dimethyl Silylate, Butylene Glycol, Caprylyl Glycol, Hexylene Glycol.
