Natural Fruit Exfoliant has the best natural and botanical products that are used for skin exfoliation and skin cleaning. You can see for yourself the amazing results.

WHAT ARE JOJOBA SEEDS?

Jojoba seeds are used to exfoliate the skin. The best thing about Jojoba seeds is that it gently cleans the skin without causing any damage to the skin or result into open pores.

Jojoba beads are primarily derived from Jojoba shrub that grows in the deserts in southern part of the United States, and northern part of Mexico. They are native to the desert region of southeastern Arizona. In ancient times, the tribes of Native America used jojoba beads as a treatment for sunburned skin. The Jojoba shrub produces large seeds from which a wax called jojoba oil is extracted.

WHAT ARE THE BENEFITS OF JOJOBA SEEDS ON SKIN?

First and foremost, Jojoba seeds provide exfoliation that does not harm the skin. Secondly, Jojoba Seed oil acts as an enriching moisturizer for the skin. The rounded Jojoba beads consists of Jojoba Seed Oil that scrub away dead skin cells while releasing a soothing emollient onto the skin leaving it moisturized and replenished. Jojoba beads can also be used to treat facial acne. It can heal acne from within.
