## HOW DOES NATURAL FRUIT POWER EXFOLIATOR WORKS?

Savarnas Mantra Natural Fruit Exfoliator is a powerful exfoliator that utilizes three types of natural alpha hydroxy acids to revitalize and resurface the skin.

Glycolic acid's small molecular structure makes it highly effective at targeting the signs of aging and helps in eliminating dead skin from the surface.

Pyruvic acid also exfoliates and purges impurities from congested skin while calming irritation. As the skin's surface is removed, the emergence of fresh skin promotes a healthy and glowing look.

The Lactic acid in this Natural Fruit Power Exfoliator helps to hydrate and condition the skin.

Together, these three exfoliants help reduce the appearance of irregularities, discoloration, fine lines and wrinkles on the skin. They further help in creating a renewed and healthy radiance.
