HOW DOES ASTRINGENT HELPS?

Astringents are helpful if you are suffering from oily skin issues. It can improve the skin's appearance by minimizing pores and drying up oily skin. Astringents can effectively close the skin pores and further help prevent pores from expanding and opening to receive dirt and excess oil. This reduces clogged pores, pimples and blackheads. It is an alcohol-based product that can easily remove bacteria and any leftover traces of cleanser or makeup.

Astringents can be derived from alcohol, cider vinegar and witch hazel. However, alcohol based astringents strip the skin of all its natural oils. Therefore, we at Savarnas Mantra after studying the benefits and problems of various types of astringents chose Natural Witch Hazel for use as an active ingredient in Natural Herbal Toner.
