

NATURAL HONEY EXFOLIANT

Savarnas Mantra Natural Honey Exfoliant uses the benefits of Amber, which serves as the mechanical exfoliating ingredient

WHAT IS AMBER?

Amber is fossilized tree resin, which has unique physical and chemical characteristics. Amber acts as a real gem for your skin! It intelligently targets the problematic areas and adjusts its temperature to the skin. Amber soothes the skin and gives it various skin benefits.

Amber opens up the clogged pores of the skin. Amber fights the free radicals and cleanses the epidermis from various toxins.

Skincare products with Amber tone, rejuvenate, and stimulate the skin with even skin tone and reduce appearance of pigmentation. They are effective to help with acne, blemishes, and pimples.

Amber serves as an antiseptic, healing and stimulating substance both for skin immunity and cell production. It calms and soothes the nervous system and reduces anxiety. It serves as an excellent medium for gentle and effective exfoliation.

It has a density as well as a hard structure that provides it abrasive qualities. It has a smooth and round shape that aims not to scratch or damage the good skin. Apart from its attractive fragrance, honey has the ability to absorb moisture from the air.

Our experts at Savarnas Mantra have also used an ingredient called Aquaxyl which delivers moisture loving Glycosaminoglycans such as Hyaluronic acid and Chondroitin Sulfate to the skin. This helps restore and balance moisture content and retention.

To supplement the skin with beneficial minerals, we've added Magnesium Glucomate which helps stimulate the synthesis of collagen boosting amino acids. It also helps boost the skin's immune system.

As a general purpose scrub, this product is excellent for full body washes, face cleansing or everyday use. Its gentle exfoliation and sweet and relaxing fragrance will leave you feeling fresh, clean and revitalized.

Our product has been medically tested and approved and is made after complete research on the ingredients. After deep research and passionate knowledge about the botanical ingredients, the product is infused with state of art technology to create amazing products that will revitalise your skin. Furthermore, our products are completely natural and we do not even use artificial fragrance. The product is paraben free and hormone free. It is specially taken care that the ingredients used do not cause any skin irritation.
