

## NATURAL HYDRATING SEAWEED TONER

### WHAT IS SEAWEED?

Seaweed is a naturally occurring mineral that is high in iodine, minerals, salts and vitamins. These properties work together leaving the skin feeling smooth and hydrated. Seaweed also gives conditioning benefits that help to naturally repair skin. It is non-oily and is therefore suitable for a variety of skin types.

### HOW DOES SEAWEED WORK ON THE SKIN?

You must be aware of the oil glands called sebaceous glands present in our skin. They produce oil which is called sebum. It travels up to the surface of the skin thereby lubricating and protecting it from drying out.

Overactive sebaceous glands produce more sebum resulting into skin problems such as spots, blackheads, pimples, acne and blemishes. Seaweed acts as an active ingredient and has a unique and innovative oil-balancing technology that helps maintain skin's balance and texture.

According to dermatologist, Dr. Debra Jaliman, Natural Hydrating Seaweed acts a powerful antiaging ingredient that can regenerate and protect the skin and get rid of the dead skin cells and toxins. If there is a bunch of toxins living inside your skin, then your skin will look dull and lifeless. For a fresh look you need to get rid of them. Seaweed acts as a natural antiinflammatory ingredient that will soothe the inflammation thereby reducing those red and painful pimples.

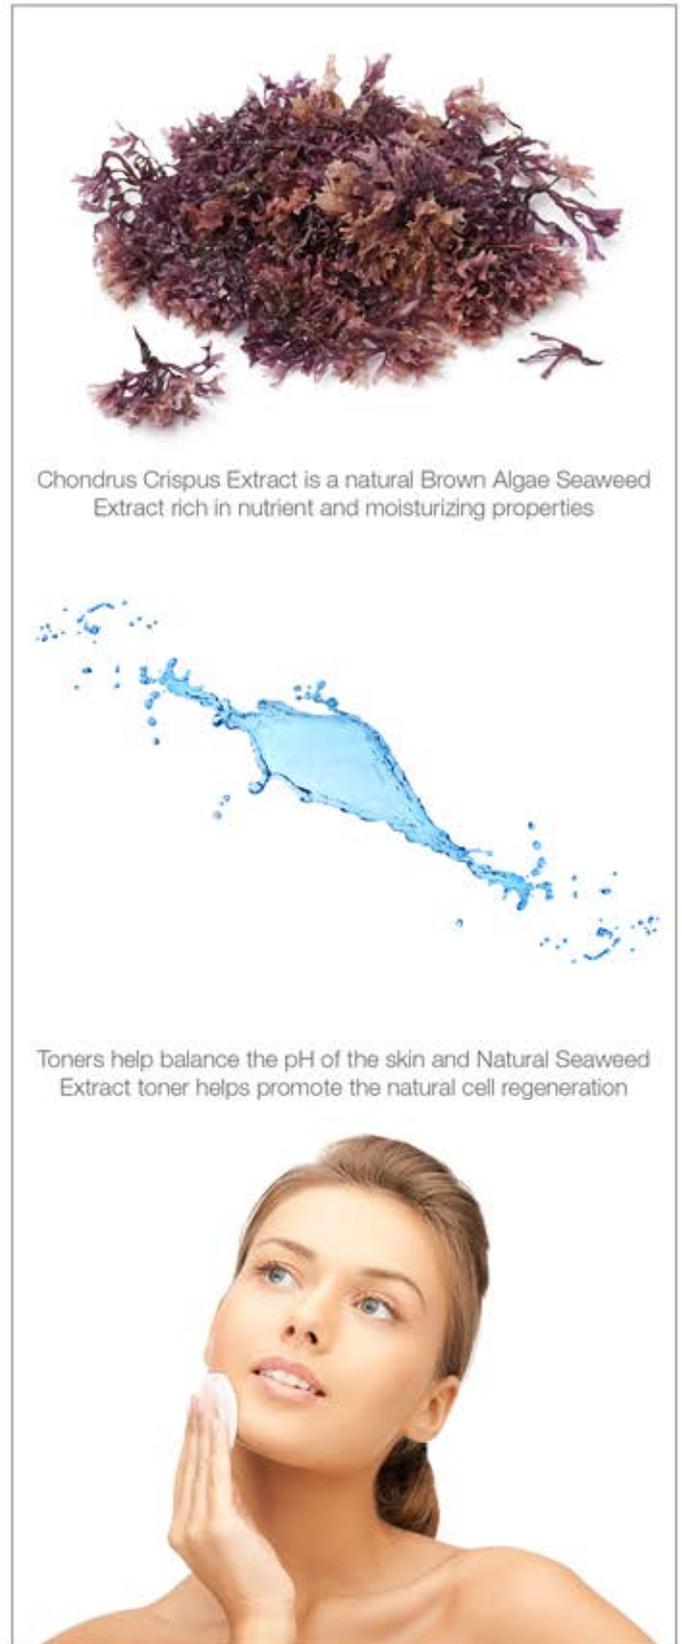

Seaweed makes the skin more supple and elastic. Seaweed has those fatty acids that infuse the skin with moisture and also prevents it from losing the moisture. Seaweed is full of those amino acids, vitamins and minerals. It has anti-bacterial properties that make it an ideal ingredient for fighting everything from acne to signs of aging.

Savarnas Mantra Natural Hydrating Seaweed Toner has the benefits of Chondrus Crispus Extract, which is a natural Brown Algae Seaweed Extract. It is rich in nutrient and moisturizing properties.

## OTHER INGREDIENTS

We at Savarnas Mantra ensure that we do not add any harmful ingredients or those that cause skin irritation. Further, we do not have any added hormones or artificial fragrances in our product. Our products are paraben free and cruelty free. They have not been tested on animals. No animal has been harmed during the process of making the product. We use only natural botanical ingredients in our products that have the benefits of vitamins, minerals and proteins.

However, we need to use preservatives for our product for their longevity. We have added Phenoxyethanol, Ethylhexylglycerin in Natural Hydrating Seaweed Toner for longer durability.
