

## NATURAL RESTORATIVE UNDER EYE SERUM

Before using the Savarnas Mantra Natural Restorative under Eye Serum, let us read about **what causes dark circles?**

The poor circulation in the tiny micro-capillaries of the skin surrounding the eye can result into dark circles and puffiness. Discoloration and swelling can significantly increase the appearance of age, and often indicates lack of sleep, stress or harsh environmental exposure.

Insufficient circulation leads to a blood overflow, which increases pressure on the thin and delicate tissue under the eye. The resulting inflammation and discoloration drains the vibrancy from your features and draws attention to unsightly dark circles below.

## HOW DOES NATURAL RESTORATIVE UNDER EYE SERUM WORK?

Savarnas Mantra Natural Restorative under Eye Serum uses a powerful mix of peptides that is derived from soy, rice and yeast to target the blood flow and reduce discoloration and puffiness. Peptides are short chain amino acids, which influence the skin's own reparative action to encourage a regenerative response.

The specific peptides used in this formula help improve microcirculation by strengthening the layers of the skin. This regulates collagen formation and elasticity. Owing to the uplifted and rejuvenated skin cells, circulation within the delicate and sensitive blood vessels improves and alleviates the appearance of dark circles.

The Natural Restorative under Eye Serum delivers a moisturizing boost to the under eye area. This under eye serum has seaweed extracts that are rich in antioxidants and offer protective value.

Another ingredient, Hyaluronic Acid, is used in the serum that acts as a natural moisturizer. It attracts and retains moisture from the environment. This helps improve the tenacity of the treated area for sustained results and offers a hydrated and healthier complexion.

## OTHER INGREDIENTS

At Savarnas Mantra we do not add any harmful ingredients or those that cause skin irritation. All the products are tested for their skin effects. We do not have any added hormones or artificial fragrances in our product. Our products are paraben free and cruelty free. They have not been tested on animals. No animal has been harmed during the process of making the product. We use only natural botanical ingredients in our products that have the benefits of vitamins, minerals and proteins.

However, to give durability to our serum we have carefully selected certain preservatives like: N-Hydroxysuccinimide, Chrysin, Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7, Propylene Glycol, Glycerin, Steareth-20, Phenoxyethanol, Ethylhexylglycerin.
