

Let us first talk about Rose Hip Seed Oil. What is it? Rose Hip seed Oil is taken from the seeds of rose bushes. It is full of vitamins, antioxidants, and essential fatty acids. These together work wonders for the skin.

## DO YOU KNOW HOW ROSE HIP SEED OIL GAINED POPULARITY?

Miranda Kerr, the Victoria's Secret model announced that she regularly uses Rose Hip Seed oil.

## WHAT ARE THE BENEFITS OF ROSE HIP SEED OIL?

Rose Hip Seed Oil is an active ingredient that offers extensive benefits to the skin. It rejuvenates as well as maintains the health of your skin. The Rose Hip Seed Oil is rich in Vitamin A, C, E and F. It helps influence the growth of collagen. Further, it also helps to reduce wrinkles on the skin and restore a firmer, smoother and younger looking appearance.

Gary Goldenberg, MD, medical director of Mount Sinai Dermatology Faculty Practice says about Rose Hip Seed oil that "it has nourishing fatty acids, which along with water, is the main ingredient in most moisturizers".

The anti-inflammatory fatty acids, along with Vitamins A and C help treat wrinkles of the skin. It helps treat signs of aging and pigmentation, besides hydrating the skin.

The model, Miranda Kerr swears to use Rose Hip Seed oil every night. This helps to keep her skin even and flawless. An anonymous source told US Weekly that Kate Middleton uses rosehip oil as part of her daily skincare routine and loves the effect it has on her skin.

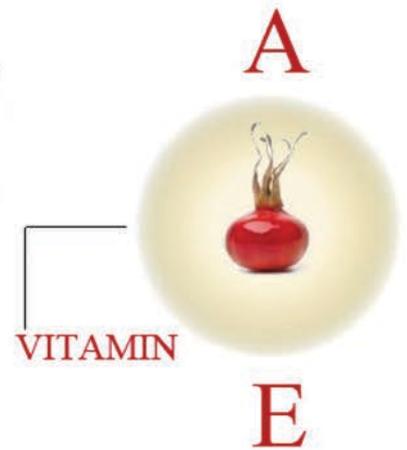

Furthermore, the rose hip seed oil helps firm the skin and makes you look younger. This oil also helps prevent oxidative damage done to your skin.

With so many benefits, this rose hip seed oil that is included in the deep cleansing gel, Savarnas Mantra Natural Rose Cleanser will help deliver the skin nourishing, and collagen boosting vitamins in an invigorating and rejuvenating wash.
