

**TRIPLE C**

BluCube MANUAL GUIDE

## INSTRUCTION

### Charging:

- Your BluCube uses a rechargeable battery. Fully charge battery before using. Please turn OFF before charging.
- Use the USB cable provided to connect to any computer /notebook or USB power adaptor. When charging, the red indicator light will appear.
- When fully charged, the red indicator light will turn off.Charging time: Approximately 2 hours. Turn BluCube off when not in use to save battery life. (You BluCube will beep every 30 seconds while playing music when the battery is low. Please recharge it for continuous use.)

### Pairing device with your BluCube:

- Before using the BluCube, please pair it with your smartphone, MP3 player, computer or any Bluetooth-enabled device.
- Set your Bluetooth device to discover the BluCube by following the instruction manual for your device. Typically the steps are going to “Setup” “connect” or “Bluetooth” menu and then selection to discover Bluetooth devices.

- Turn the BluCube ON. Speaker will automatically begin pairing. The blue indicator light will flash quickly, this indicating “in pairing mode.”
- When your Bluetooth-enabled device discovers the BluCube, press “OK” to pair with the BluCube. Blue indicator light will switch to slow blinking to indicate pairing is successful.

#### Troubleshooting:

- If Bluetooth-enabled device fails to locate the BluCube, check that the speaker is ON. Ensure that your device is within range (within 30 feet/10 meters). Restart your BluCube to reactivate Bluetooth pairing mode. Ensure that your speaker is not connected or paired to any other Bluetooth device as the BluCube can only be paired to one device at a time.

#### Playing music:

- After pairing is established, you can play music from your Bluetooth enabled device. Music and volume can be controlled by your device. You BluCube will play up to 7 hours depending on volume level.

How to use Line-In function:

- If you have a device that is not Bluetooth-enabled and you would still like to use it with the BluCube, you can! The enclosed 3.5mm audio cable can connect to your non-Bluetooth enabled devices.
- Turn the BluCube ON and plug the 3.5mm audio cable into the “Line-in” port.
- Plug the other end to your device. Music and volume can be controlled by your device.

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
