

QUICK START GUIDE FOR

RECON GPS TRACKER

CHARGING

- Plug charging cable into GPS tracker and wall charging adapter.
- A full charge typically takes 2-3 hours.
- The battery light will slow flash GREEN once it is done charging.
- Turn OFF by pressing the off button behind the charging port cover. Turn ON by plugging tracker in to charge.

ACTIVATION

- Complete registration form at www.spyguy.com/pages/gps-registration.
- Once you are registered, SpyGuy will send you activation instructions.
- Activation is only required when you initially purchase the tracker.

TRACKING

- Visit track.spyguy.com to login to the tracking interface from your Mac or PC.
- Download "X-GPS Monitor" from the App Store to track from your smartphone.
