

Anne Weekes Camouflage and Concealer Cream

is the best camouflage makeup for covering birthmarks, tattoos, spots, scars, acne, rosacea, vitiligo, varicose veins etc.

Easy to use and waterproof.

BEFORE

AFTER

I'm always searching for a new foundation and concealer, I can never find one that does a good job. I've even tried the new BB Creams but nothing compares to the Anne Weekes camouflage range! Fantastic products, goes on smoothly and you only need a small amount. I feel great wearing it and can happily say the search is over! Love these products. Thanks Anne." ★★★★★

How to use

Ensure that the area to be covered is clean and dry.

Pat on the camouflage cream with finger tips or sponges in a light gentle motion. If the area has a strong red colour or for dark tattoos apply the green or white camouflage first - apply small amounts until the desired coverage is achieved.

Then bring the area up to match the surrounding skin tone with one of the flesh coloured tones. If the result is too dark apply some white camouflage to lighten the area. Leave the camouflage to settle for a couple of minutes.

Then apply the finishing powder over the entire area with cotton wool pads - this will set the camouflage and make it waterproof.

Reviews

"I went to see Anne and have been using No.3 ever since (25 years). People don't even notice my redness as it's so natural. I never ever leave the house without it, I don't know what I'd do without it, it has been a lifesaver. I used to dread going to meetings or playing sports but not any more. I can't say enough good things about your camouflage. I have tried other products over the years but NOTHING COMPARES TO IT." ★★★★★

Linda Curley, Dublin, Ireland.

"I feel confident going out when I have your camouflage cream on . If I had to bring one thing out of the house in a fire or to a desert island, I would grab your camouflage creams. Your products are fantastic and I always recommend them to people." ★★★★★

Kathy Heelan, Mayo, Ireland.
