

Technical Data Sheet | BP8

Drum Spill Pallet | 8 x 205ltr Drums

The BP8 is a sturdy spill pallet engineered to accommodate 8 x 205ltr drums placed side by side on a removable plastic grid, providing easy access to the sump area for hassle-free cleaning and decontamination. The sump, fully compliant with all UK regulations regarding capacities, ensures effective containment.

This updated pallet design boasts optimised nesting pockets, enhancing both storage and transportation efficiency. Furthermore, it is UV-stabilised for increased durability.

Product Specifications

External Dimensions (WxDxH)	2560 x 1350 x 500mm
Unit Weight	Approx. 125kg (approx. 80kg without grids)
Sump	1100ltr
UDL	3000kg
Stacking Height	2215mm

Product Features

- Easy to position 8 x drums with the flat surface
- Low profile, durable, hardwearing and robust
- Designed to stack 6 units (with grids) to minimise transport costs
- Detailed product inscription; product name, uniform distributed load weight, sump capacity, PE recycling logo and empty before moving warning message. These additions increase both functionality and environmental awareness.
- Backed by our 3 year guarantee
- 3 x removable grids for easy cleaning
- 2-way forklift pockets
- UV stabilised
- Colours available: Yellow and blue

Colour choice will be reflected in product code
