

PRODUCT OVERVIEW

The Schoeller Masks 4-Ply non-medical, disposable face masks are designed to cover the nose and mouth in order to minimise the incidence of cross-infection.

The masks is made with 4 layers of fabric for added protection and with an integral plastic-coated strip for optimum fit, whilst being light-weight and comfortable. The elasticated loops are latex-free to minimise allergic reactions and allow for all day comfort.

The 4-ply masks are designed for everyday use including public transport, supermarkets and restaurants.

Manufactured in the UK.

Please note: These are not intended for use in medical surroundings.
