

PRODUCT OVERVIEW

FFP2 NR Face Masks are certified to EN 149:2001 and A1:2009 modified by PPE-R/02.075 version 2. Filtration Efficiency > 94%. Respiratory resistance (inspiration - exhalation) tested and compliant. 4-layer filtering protection.

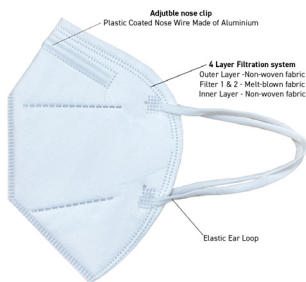

Designed to fit around the nose and mouth for a comfortable fit whilst the ear loops ensure it stays securely in place. Adjustable nose clip. 3D design will help prevent glasses from fogging up.

The FFP2 disposable face masks offer protection against dust, mist and other airborne particles. The masks helps prevent particles from entering the body through the mucous membranes of the mouth and nostrils.

Suitable for everyday use including public transport, education, restaurants, outdoor activities, shopping and many workplaces.
