

200 pads with 80 litre capacity

Oil selective pads absorb hydrocarbons, but repel water making them ideal for responding to land based spills when it is raining, taking "oil" off water or in any application where you only need to absorb hydrocarbons. These pads are bonded and fitted with a cover-stock to provide excellent wear resistance and market leading tensile strength and are perforated to allow you to use as much or as little as you need depending on the application.

Made from 100% Polypropylene with a sonic bonded core perfect solution for day to day applications. Manufactured in the UK.

- **Storage - Store in a dry place.**
- **Disposal - Pads must be disposed of in compliance with the absorbed liquid destruction Regulation.**
- **Transport - No specific regulation, can stand extreme cold, to be kept away from heat > 160°C.**

*The absorption capacity is calculated in accordance with the BS 7959-1:2004 : putting of a sample in a 20W50 oil bath at 25°C until saturation and weighing after a 2 min vertical draining.

SPECIFICATIONS

CODE	OSPRM200-80
LENGTH (MM)	500
WIDTH (MM)	400
ABSORBS	Hydrocarbons but repels water
CAPACITY	0.8ltr per pad - 160ltr per pack of 200
COLOUR	Grey
PACK WEIGHT	6.4kg
QUANTITY IN PACK	Pads - 200 and Packs - 24 boxes
