

Onfloor[®]16 16" MULTI-PURPOSE MACHINE

Heavy Duty Frame

Constructed of heavy-duty steel for strength and durability.

Removable Handle for Versatility

Handle is removable for easy transport and storage.

Heavy-Duty 1.5 HP Motor

120V,60 HZ

Lightweight Bowl Design with Lift Handles

Heavy duty, but light enough for all users to maneuver. Includes 1.5" Dust/Water port.

Quick Change Tooling

Change from grinder to sander to polisher in seconds eliminating costly down time. A change you do not have to dread.

Optional Horseshoe Weights

Revolutionary Performance

The Onfloor[®]16 is a revolutionary and economical multi surface floor machine equipped with Onfloor's patented triple head planetary technology.

Onfloor[®]16 is powerful enough for professional users, yet simple enough for almost anyone to operate and service.

The Onfloor[®]16 also incorporates Onfloor's patented tool attachment system that is known for being the fastest tool change in the industry.

Tooling packages are available for a multitude of applications including:

- **Concrete Surface Preparation**
- **Concrete Polishing**
- **Epoxy Removal**
- **Mastic/Glue Removal**
- **Wood Floor Sanding/Refinishing**
- **Stone Polishing**
- **Wood Deck Restoration**

The Onfloor[®]16 is available in two different tool speed configurations, 500 and 1000 RPM.
