

X-35AR HIGH-TEMP AXIAL FAN

The XPOWER X-35AR axial fan was designed for high temperature work environs up to 180°F. Use the X-35AR in conjunction with high temperature heaters to circulate hot air for thorough pest control, water damage restoration, and more. This high performance fan features a high torque, sealed motor, variable speed control, and a low 1.6 Amp draw for a focused, powerful air flow up to 60 ft. The X-35AR high temperature housing material is made with ABS+PC (Polycarbonate) - lightweight and stackable with an included 360° rotational rack/stand and built in daisy chain power outlet. Like all XPOWER air movers, the X-35AR is ETL/CETL safety certified.
