CONTENTS

- 01** Objective lens
- 02** Collapsible optical tube
- 03** Eyepiece lens

WARNING

SUN HAZARD – Never look directly at the sun with this device.

INSTRUCTION MANUAL

Discover The Details!

Your Discovery 8x32 Sky and Nature Scope is the perfect companion for exploring both terrestrial and celestial sights. With this scope's 8x magnification and large 32mm aperture you can investigate the unexpected details in everyday sights. By day, use the scope to see close-up views of distant landscapes and wildlife. At night, point the scope toward the sky and zoom in on the Moon's chiseled surface.

How To Use

Hold your Sky and Nature Scope with one hand on the lower section of the collapsible optical tube. Position the eyepiece in front of your eye and look at a distant object. If you do not see the object in focus immediately, slowly extend or retract the upper section of the optical tube until the object is in focus.

Cleaning Instructions

To clean the lenses, only use a soft, lint-free cloth like a microfiber cloth. Do not apply excess pressure to the cloth to avoid scratching the lenses. To remove more stubborn dirt, moisten the cleaning cloth with an eyeglass-cleaning solution and wipe the lenses gently being careful to avoid excess pressure. Protect this device from dust and moisture. When using in high humidity conditions, let the device acclimatize for a short period of time before storing so that residual moisture can dissipate.

SAFETY WARNINGS

Read and follow the instructions, safety rules, and first aid information.

- Risk of blindness: NEVER use the scope to look directly at the Sun or in the direct proximity of the Sun. Doing so may result in a permanent loss of vision.
- Risk of fire: Do not place this device, particularly the lenses, in direct sunlight. The concentration of light rays could cause a fire.
- Respect privacy: When using this scope, respect the privacy of other people. For example, do not use them to look into people's homes.
- Choking hazard: Children should only use this device under adult supervision. Keep packaging materials like plastic bags and rubber bands out of the reach of children as these materials pose a choking hazard.
- Do not disassemble this device. In the event of a defect, please contact your dealer. The dealer will contact the Customer Service Department and can send the device in to be repaired if necessary.
- Do not subject the device to temperatures exceeding 60° C (140° F).
