

Access Control Solutions for a Mobile World

ASSA ABLOY
Opening Solutions

Experience a safer
and more open world

Secure. Flexible. *Convenient.*

Smart phones have become the control center of our lives. We manage nearly every aspect of our existence with mobile technology, so why should unlocking doors be an exception?

Count on ASSA ABLOY Group brands for a broad range of access control locks that support HID Mobile Access® powered by Seos®, offering:

- Native support for iOS® and Android™ devices
- Available in wired or wireless locks
- Comprehensive security
- Mobile access for work, home and hotels

The Ultimate in Security and Convenience

Convenience

- Allows you to unlock doors with your mobile device, whether it is iOS® or Android™

Comprehensive security

- Protects identity data
- Keeps over-the-air communications between mobile device and locks private

Simplicity

- Streamlines credential distribution and revocation
- Intuitive and easy to manage mobile access bundle consists of the HID Secure Identity Services™ Portal, HID Mobile Access® App and Mobile IDs

Interoperability

- Fully interoperable with HID Global iCLASS SE® and multiCLASS SE® cards and readers configured for HID Mobile Access®
- Integration with access control systems is flexible and easy

Powered by Seos®

Seos® is a next generation credential technology that enables the world's first multi-platform ecosystem for issuing, delivering and revoking digital keys and other identity data across a broad range of smart devices, including mobile phones, micro-processor cards and wearables.
