

TV Safety Kit

A safety-certified wall mount can be the best way to avoid accidents when integrating a TV into your living space. This steel cable provides extra security to that TV mount installation. When a mount is not used, this anti-tip device is an essential means for avoiding injuries to kids and damage to your flat panel. Tether your TV when it's placed up in high-traffic areas and gain peace of mind.

Works with any flat-panel TV

Prevents tipping to protect children and pets

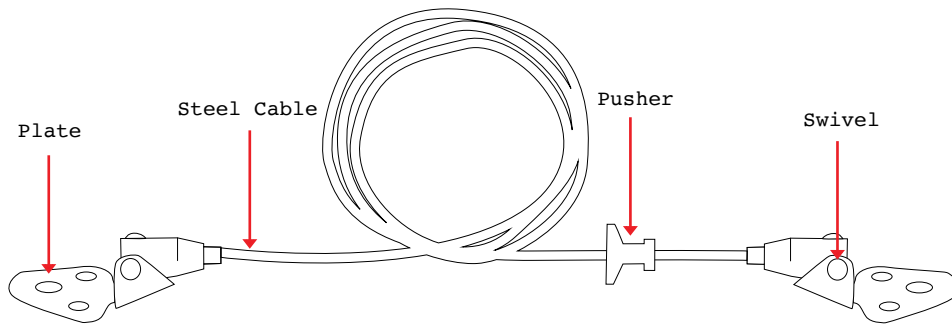

Ideal for flat-panel TVs on furniture within arm's reach or in high-traffic areas

Works with wood studs or concrete wall

Steel cables are easily adjustable using a tensioning clamp
