

What is the Premium Course?

This document gives a description of the Premium Course.

The Premium Course includes the same series of streamed video lectures and practical exercises as the regular online course, but also includes a series of 4 assignments, which are submitted by participants for individualized feedback.

Assignments are submitted to info@legislatedrafting.co, and feedback will normally be provided within 48 hours. The assignments can be done at any time, but there are recommended lectures to be viewed before completing each assignment.

Participants in the Premium Course receive a certificate of completion once all 4 assignments have been submitted.

To order the course, simply choose the Premium Course from the dropdown menu on the online course page.

The rest of the functioning of the course is the same as for the regular online course, and I would suggest that you read the document “How the Course Works” for additional information in that regard.

If you have any questions please check out our FAQ page or contact me at info@legislatedrafting.co

All the best and I hope that you will find the lectures to be useful and informative.
