

Shipper's Declaration for Dangerous Goods

June 30, 2023

Dear Sydney Gateway Facility and/or Aviation Security,

Notice to Mail Gateway Staff/Customs

RE: THIS PACKAGE

We hereby declare that everything in this package can be shipped by aircraft without any regulations, according to **IATA 57th edition chapter 3.9.2.2 and [Packing Instruction PI 953](#) which applies to UN 2807; magnetised material on passenger and cargo aircraft where should accept:**

1. Devices such as magnetrons and light meters have been packed so that the polarities of the individual units oppose one another.
2. Permanent magnets, where possible, have keeper bars installed.
3. The magnetic field strength at a distance of 4.6m (15ft) from any point on the surface of the assembled consignment:
 - ✓ Does not exceed 0.418 A/m (0.00525 gauss), or
 - ✓ Produces a magnetic compass deflection of 2 degrees or less.

This package and goods contained within also **meet** the international couriers' guidelines for dangerous goods as described by [D2.9.2-Magnetised Materials](#) and comply with Australia Post/International couriers Terms & Conditions Part D – Prohibited Goods. The goods have been packed in accordance with Appendix 3.

We declare the goods have been tested with a gauss meter and comply with the guidelines and that in the packaged form the goods are **not classified as dangerous goods** as described [Australian Civil Aviation Act 1988](#) and [Civil Aviation Regulations](#) and also by [Australia Post Guidelines](#) in that the magnet material, when packed, has a magnetic flux density less than 0.159 A/m at a distance of 2.1 metres from any point on the surface of the package.

Transportation Information:

Not classified as hazardous goods as understood in the ordinance given magnetised parts in packaging units.
