## Accell Powramid Air Power Center Review and Giveaway

By Nate McClain

Like Roy Neary from "Close Encounters of the Third Kind", I gazed at the glowing, disc-like countenance of an almost alien-looking machine. Yes, the **Accell Powramid Air** with USB charger is a very cool-looking addition to any office, conference room, or even dorm room computer gaming station. And while this saucer is very powerful, it is packed with safety features guaranteeing that you and your devices don't end up with a sunburn.

The **Accell Powramid Air Power Center** and USB Charging Station features 6 adapter-spaced outlets. Unlike the traditional "6 strip" six outlet surge protectors, this arrangement means that you can use all six ports, regardless of the size or shape of adapter in each. No longer will you have one or more ports uselessly covered by another adapter.

Its round, flat design is perfect for placement on a desk or conference room table, providing e networking everyone a

The two USB charging ports feature smart chips to provide a combined 2.4A of fast charging for USB powered devices. When tested, my Ipad went from dead to fully charged in under 3 hours, which is a record in my house - by quite a bit. In fact, all USB powered devices, such as mobile phones, tablets, and portable music players can be charged here.

But power doesn't mean danger as the Powramid air comes packed with safety features, like 1080 Joules (that's a lot) surge protection, a blue surge protection indicator light (for visual reference), a 15 amp circuit breaker, and finally a warranty. Needless to say, they stand behind their product.

This little disc is such an elegant solution to so many problems around my own house, the Powramid Air isn't going anywhere anytime soon, but if it did, like Roy Neary, I might ask to go too!! Stay current on the latest news and deals by following [Accell](#) on [Facebook](#) and [YouTube](#)!

One of my lucky readers will win the Accell Powramid Air Power Center. This giveaway begins on 1/10/17 and ends on 1/25/17. Must be 18 years or older, open to residents of the US only. This giveaway is in no way endorsed, affiliated or associated with Facebook, Twitter or any other Social Media Networking Site.

I think this is really cool! I use a few power strips in my house and the biggest problem is half the plugs are covered up by other big bulky plugs and it's soooo annoying! And I love that it also has USB !! This would be a great addition to my house!

I really think this is awesome! Perfect for my nightstand! I am always charging things there and have several things to plug in and can't find enough places to put the cords.

What an awesome charging station. This is the one I am looking for to let me charge all of my gadgets at the same time with an equal seating space.

I like that all these items can be plugged in. In my house, my phone tends to be unplugged so one can use the toaster
