

[Round Up Your Devices and Power Them Up With Accell Powramid Air Power Center](#)

Face it, we all have a huge collection of electronics. Most of them need to be recharged or plugged in, and the outlets in some of our homes just aren't enough. Especially our tech savvy family, we live in an older home and the amount of outlets just can't keep up with the amount of power we need. We're always using power strips, but those strips are so ugly, unappealing and stick out like a sore thumb.

The [Accell Powramid Air Power Center and USB Charging station](#) changes all of our problems. It's kind of cool looking, not your typical power strip at all. It's a disc-like shape with a little glow added to it, making this round power center something unique and almost nice to look at in your space.

The Accell Powramid Air Power Center and USB Charging Station has 6 outlets. The difference between this and a normal power strip isn't only the shape, but being that it's round, you can use all six outlets no matter what size or shape the adapter is, no more covered ports because of a charger, they all fit and they can all be used! The [Accell Powramid Air Power Center and USB charging station](#) is also good for group / office settings as it can be placed allowing everyone access to an outlet.

Besides the power outlets, you are also able to use USB charging ports. There are two available and feature smart chips which will provide a combined 2.4A of fast charging. It's not just lip service. Plugging my phone in and it was fully charged in a matter of an hour. Any device that can use a USB charger can be charged on the Accell Powramid Air Power Center.

The Accell Powramid Air Power Center also comes with safety features such as surge protection, as well as a blue surge protection indicator light, 15 amp circuit breaker, and a product warranty.

We keep our Powramid Air Power Center used at all times, it's been a blessing to our home and we were able to get rid of the ugly flat power strips we normally used, it also saved space with its round flat design.

You can purchase the Accell Powramid Air Power Center and USB charging station on Amazon.com or check out Accell's [website](#) and connect with them on [Facebook](#) and [Twitter](#) to see more products and news.
