AccellCables.com

Mirror or Extend your Desktop Over 2 Displays

The Accell UltraAV Mini DisplayPort Multi-Display MST Hub allows you to connect up to 2 DisplayPort monitors from a single Mini DisplayPort output. The multi-display hub utilizes multi-stream transport (MST) protocol, supporting up to 2 displays independently at 2560x1600 @ 60Hz (reduced blanking) or 3840x2160 @ 30Hz (reduced blanking) each with DP 1.2.

Ideal for use with Microsoft Surface Pro 2 or Surface Pro 3 Computers

Expand your display beyond the compact display integrated into your Surface Pro 2, Surface Pro 3 or other Mini DisplayPort enabled laptop or desktop computer. Now you can extend your desktop onto two large, high-resolution monitors and dedicate each display to a separate application, providing the efficiency and productivity of multi-tasking.
