## Accell supports Great Travel Tech with Greater Power Gadgetry

by [Shane](#)

October 21, 2015

Whether it be a smart phone or table, portable music player, speaker, camera or GPS. bringing our technology brings many benefits. Unfortunately *with great technology comes great power requirements* which can be very challenging on international trips.

Our friends at [Accell](#) are aware and are up to the challenge and have an amazing great Gizmo that should be the top of your travel tech list. The [Accell Home or Away™ Dual USB Charging Kit with International Plug Adapters](#) will provide you with that extra power boost, whether you are in New York, London, Paris or Sydney.

This gadget is very easy to use. Simply attach the correct (Interchangeable) regional power interface and plug the device directly into the power plug. The auto-switching feature will automatically

detect and switch the device to the correct voltage. The illuminated Blue LED on the [Home or Away™ Dual USB Charging Kit](#) indicates that the USB charger is receiving power.

Small enough to slip into your pocket or travel kit, this device is capable of charging two USB devices simultaneously and compatible with both small (ie smartphone, Bluetooth speaker) and large (ie Digital Camera, Tablet) power requirements.

### Specifications
