Gotta Have Gadget

ACCELL POWERGENIUS

[December 20, 2015](#) | [mconrad](#) | [Leave a comment](#)

With so many cellphones, Bluetooth Speakers and tablets in my house, I have found I need more USB Power Supplies than I have outlets for! A great gift for a dorm room, or any room in your house is the Accell PowerGenius.

The Accell PowerGenius features four rotating power outlets as well as two 2.4a USB power ports. All 4 power outlets as well as the 2 USB ports are surge protected. Simply plug this into a standard outlet, and plug in your devices.

As soon as mine was plugged in, my wife plugged in her computer, my daughter plugged in her cell phone, and I plugged in my new bluetooth speaker. No need to search for USB power cords, simply plug in with a

standard USB cord.

With an MSRP of \$21.99 it's the perfect gift for college students or anyone with a lot of portable devices to charge! Order yours today at [Accell PowerGenius!](#)
