About WJ

Celebrating WJs 10-Year Anniversary... Viv Chapleo & Jill Hoelting are the dynamic duo behind WAVEJourney.com - Women's Adventures, Vacations & Experiences ~ Your Journey Starts Here!

WAVEJourney.com is a women's online travel magazine that provides valuable first-hand travel tips, tales, steals and deals to a world-wide audience.

WJ Tested: Accell Home and Travel Products Review

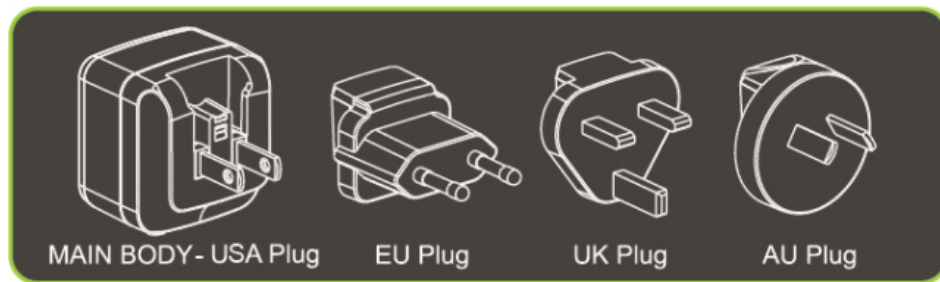

WAVEJourney is continuously seeking better gadgets to enhance the use of our techie products – either while we are at home or when we're travelling to exotic destinations. Recently, **Accell** sent us a few of their products to test and review, and we think you'll also appreciate knowing about them.

1. HOME OR AWAY CHARGING KIT

Accell Home or Away International Plug Adapters

Description: Dual USB Charging Kit with International Plug Adapters

Accell Home or Away Charging Kit

Features:

- Folding USA AC plug (non-polarized)

- Changeable plug adapters for Australia, UK and Europe
- Works in over 150 countries
- Dual USB charging ports
- Fast 3.4A (shared) charging
- Over current protection
- Over voltage protection
- Short circuit protection
- LED power indicator

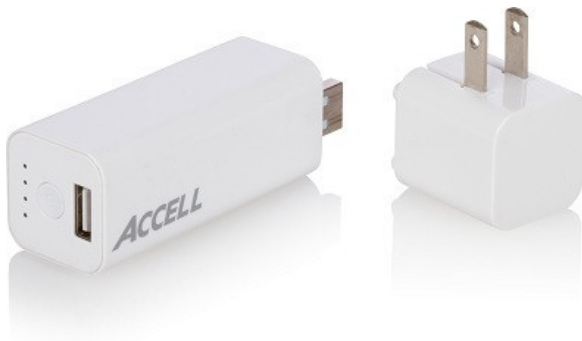

Specifications:

- Input: 100-240V, 50/60Hz
- Output: DC 5V/3.4A Max
- Watts Max: 17W

Use:

- Allows USB high-speed charging of two gadgets at one time
- Charge tablets, cameras, power bank, GPS, smartphones, iPods/MP3 players, speakers, etc.
- Switches voltage automatically to country being used in
- Compatible with most international electrical currents – 100-240V
- Plug adapters make it easy to use in the USA, Europe, UK and Australia, plus various other countries
- Provides fast charging of devices
- Illuminated LED light shows that the devices are charging
- Easy to use and compact enough to carry when travelling

TECH POWER – 2-IN-1 POWER BANK AND USB AC CHARGER

Accell Tech Power 2-in-1 Power Bank

Description: The Accell Tech Power 2-In-1 Power Bank is an AC charging and backup power system that combines a USB wall charger and a power bank.

Features:

- Battery Backup
- USB Wall Charger
- User Manual
- Fast battery charge time = under 3 hours

Specifications:

- **Battery Backup:**
 - Li-Ion Battery 2600mAh
 - Input: DC 5V – 800mA
 - Output: DC 5V – 1A
- **USB Wall Charger:**
 - Input: AC 100-240V – 50/60Hz 0.15A
 - Output: DC 5V – 1A
- **Measurements:**
 - Weight: 4 ounces
 - Size: 1.12 x 1.12 x 4.25 inches

Use:

- Works with smartphones, digital cameras, iPod/MP3 players, GPS, portable game consoles, and mobile electronics that use 1 amp charging
- Compact size makes it very portable – fits in a pocket

- Quick and easy to use while on the go for topping off a charge
- Charge both a device and the power bank at one time
- Can charge a device through an electrical power outlet using the USB wall charger
- Holds up to 2600mAh of charging power (easily enough power to fully charge a drained smartphone)

HOME OR AWAY POWER STATION

Accell Home or Away Power Station Surge Protector

Description: Travel Surge Protector with Dual USB Charging

Turn any grounded AC outlet into a USB charging station for your mobile devices. The LED indicator reports a green light to show protection of connected equipment.

Features:

- LED Indicator Reports Surge Protection Status
- Two USB High Speed Charging Ports
- Surge Protected and Grounded Power Outlets
- Folding Plug
- Surge Protected and Grounded Power Outlet

Specifications:

- Electrical Rating: 120V, 15 Amps, 1800 Watts
- Maximum Spike Voltage: 6000V, Current: 3000V
- USB Ports: 2 USB-A; Shared Power: 10W, 5V, 2.1A
- Power Plug: Folding, 3 Prong (Grounded), Non-Polarized

Use:

- For use in countries with 120V electrical rating (Canada, USA, – check for appropriate electricity voltage in other countries)
- Charge up to 2 mobile devices via the USB chargers
- Charge up to 3 electronic gadgets via the grounded transformer AC outlets
- Compact size and lightweight
- Perfect for use at home or in hotel rooms, airports, planes, and trains

BOTTOM LINE:

With these **Accell** products, you can always be prepared. It's easy to keep your expensive techie products (laptops, phones, tablets, iPods, cameras) safe from power surges, always charged, and plugged in wherever your travels take you.
