

BULK MATERIALS

PRODUCT NAME:

Clean Fill Dirt

Our Clean Fill Dirt is free of materials dangerous to humans, animals, and the environment. Clean fill does not mean that the dirt is screened and found to be free of debris and organic materials, which is a common misconception. It simply means the fill dirt is environmentally clean and free of hazardous materials.

With so many uses, clean fill dirt is one of the most popular fill dirt options.

PRODUCT USES:

- Ground Leveling or Elevating
- Subsoil for Flowerbeds & Landscaping
- Filling Unwanted Holes on Property
- Embankments, Shoulders for Roads, and Parking Lots.
