

BULK MATERIALS

PRODUCT NAME:

Screened Organic Compost

Our Screened Organic Compost is made from a combination of virgin agricultural products: grasses, leaves, screened topsoil, and sand. **NO MUNICIPAL WASTE!** Processed, fully aged, and screened to produce the perfectly balanced soil ingredient. When tilled into the soil, our Organic Compost will build very productive soils by adding organic matter to flower beds, gardens, and lawns. Naturally organic and pH-balanced, compost is an economical way to improve poor soil conditions.

PRODUCT USES:

- Garden Soil Amendment and Improvement
- Natural Fertilizer for Planting Beds
- Thin Topdressing for Lawns
