

ELECTRIC AND MANUAL FOLDABLE WHEELCHAIR - GEMN302

@disabilityequiponline

SUPER RELIABLE

About this product

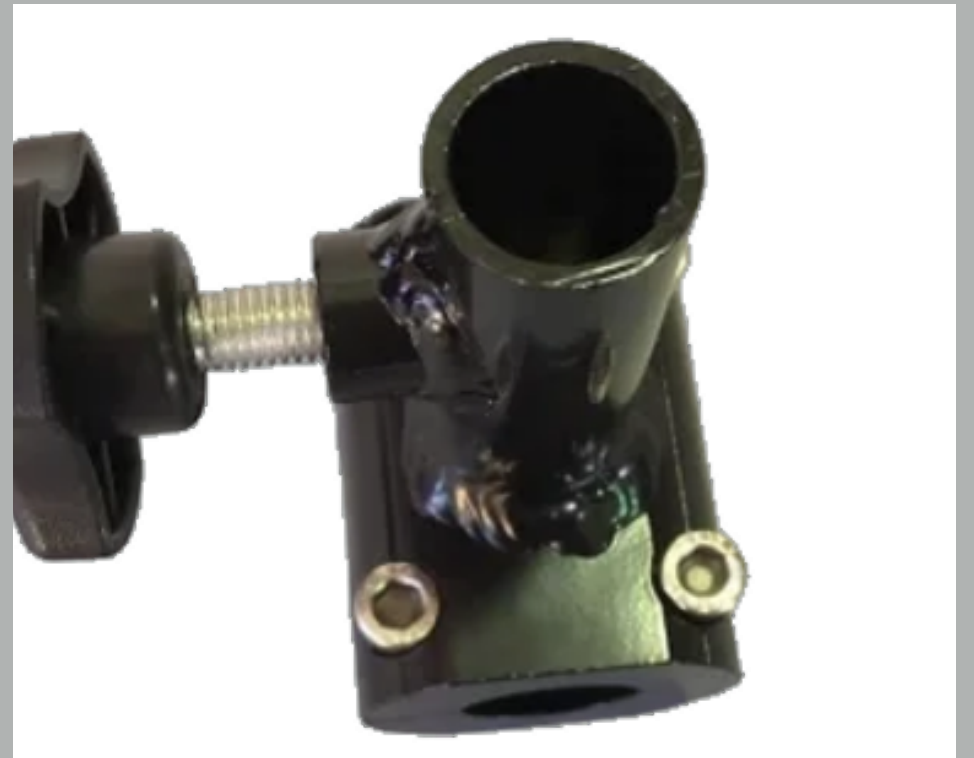

As one of the most ergonomic and heavy-duty wheelchairs on the market, it is fitted with easily fold-able footplates and armrests ensuring flexibility and comfort.

The GEMN302 offers a removable joystick to efficiently suit left and right-handed users. The GEMN302 offers a lightweight frame without compromising on strength and has a sleek and modern feel making it enjoyable to use. The breathable cushion is removable and washing machine friendly ensuring a clean and comfortable ride each time. Offering both durability and elegance, the GEMN302 is engineering at its finest.

Folding Instructions

This electric wheelchair has an adjustable leg rest which can help with blood circulation.

With an easy twist of a knob, you can make your wheelchair turn from a manual to an electric wheelchair.

electric to a manual wheelchair with manually adjustable back and leg support

Anti-tipping wheels are an extra safety precaution that will help you use the wheelchair comfortably, knowing you are safe and secure!

The foldable backrest is used when folding away the wheelchair for travelling or storage.

To fold away the backrest, all you do is pull the levers up from behind the wheelchair and fold away!
